Assignment 4

Venkata Govardhan Goli

Class Id :14

Wire frame for the login

Login

A wireframe for a login form. It consists of a large rectangular container. Inside, at the top, is the label "Username" followed by a rectangular input field containing the placeholder text "Username". Below this is the label "Password" followed by another rectangular input field containing the placeholder text "Password". At the bottom of the container, there are two buttons: "Login" on the left and "Register" on the right. Both buttons have a light gray background and a thin black border.

The username and password was used to login.
