ADVANCE SOFTWARE ENGINEERING

ASSIGNMENT 7

Venkata Govardhan Goli

Class ID: 14

Login page will be the first page. For the new user the register option will be available. After clicking the register option, register page will open and we fill the details in the page. The details are stored in the database.

"$oid": "56e150e8e4b02bebdf0d5e68"
},
"First Name": "VenkataGovardhan",
"Last Name": "Goli",
"Email or Mobile Number": "vgoli@gmaail.com",
"Re-Enter Email or Mobile Number": "vgoli@gmail.com",
"password": "venkat"

Database is updated with the information given.

After register the page is redirected to the log in.

After login we can get update and delete options.

If we select the update button, we can update the information.

```
{
    "_id": {
        "$oid": "56e151d3e4b02bebdf0d5e70"
    },
    "First Name": "VenkataGovardhan",
    "Last Name": "Goli",
    "Email or Mobile Number": "vgoli@gmaail.com",
    "password": "venkat",
    "Confirm Password": "venkat"
}
```

Information is updated.

The data will be deleted from the database.

After clicking the confirmation the data in the data base is deleted.
